

Illinois Art Education

If you are a full-time undergraduate or graduate student, you can attend the conference and be reimbursed for half of your conference registration fee by investing six or more hours of service during the conference. Under the coordination of Steven Ciampaglia, IAEA Student Advisor, you will be placed in various volunteer positions. Upon completion of the conference, you will submit your record of service and the reimbursement will be mailed to you after the conference. This volunteer opportunity is only available to FULL TIME students (undergrads with at least 12 registered hours and grad students with at least 9 hours.) You will be able to attend the conference sessions, workshops and special activities while also meeting your service hours. This is a great opportunity to network with art teachers from around the state and become involved with your state professional association. The positions fill fast, so contact Steven Ciampaglia immediately at: sciampaglia1@niu.edu to enroll in the Student Assistants program. The deadline to enroll is October 1, but the positions fill quickly and are assigned as requests are received.
